General Walters:

STAT For concluding remarks to US Army
Special Research Detachment, OTR Program
Officer, [] said that the basic group
is involved in general intelligence studies,
some are interested in ground force capabilities
and others in special general operational research.

She suggests you talk to them about where
the Agency is headed. No one has talked to them
about the Intelligence Community and she suggests
you touch upon that and the role of the DCI in the
IC. They would welcome any comments you can
make on the possible reorganization as result of
investigations, anything you can say about Mr.
Bush. Anything on the DCI's goals for the IC.
A sort of overview and reassurance.

STAT [] will come at 3:25 to escort
you to 1E78 where you will address the group.

Nancy
